

**STATEMENT OF PURPOSE****RS23600C1**

This resolution asks the State Department of Education to review the state Language Arts and Math standards in year 2015. These standards are typically reviewed every 5 years. It has been 5 years since these standards were adopted and current standards were based on the Common Core State Standards. Because there has been some concern about Common Core English Language and Math standards, this resolution asks that some of these issues be addressed and changed if the review committee so decides.

**FISCAL NOTE**

No fiscal impact. These reviews are currently being done on a regular basis.
